Fully up to the Miller & Rhoads standard of quality and

DISMISS MOODY FROM POLICE DEPARTMENT

Mounted Officer Charged With Improper Conduct While on Duty.

TOOT ESCAPES WITH FINE

Many Witnesses Examined by Board, Matter Being Fully Investigated.

Charged with conduct unbecoming an officer, Mounted Policeman Melvin of the First District, was dismissed from the force last night by official action of the Board of Police Commissioners, and Mounted Officer William A. Toot, who had been implicated in the same charge, was ac-quitted, but was fined \$25 for neglect of duty and not properly patrolling his beat on the night in which Moody committed the discretion for which he

Officer Moody was dismissed from the force on the gravest charge which has been brought before the board for has been brought before the board for many years. Though, of course, the board meeting was executive, it was stated afterwards that the evidence against him was conclusive, and even some of his own numerous witnesses gave in testimony which, though it was otherwise intended, was damaging.

Charge Fully Sustained.

It was proved beyond doubt, as far as the board is concerned, that Moody had been guilty of improper conduct, and proof against him was continually amassed by every witness who appeared.

peared.

But it was also proved that Officer Toot, who accompanied Moody on the night the offense was committed, was not implicated; that his only officials was to sit down and eat some crabs which the two had bought. For this neglect of daty he was fined.

Twinty-odd, whenesses were summoned last night, some by Moody and some by his accusers. Both the accused officers were present in the board meeting, and both heard the evi-

board meeting, and both heard the evidence brought against them. Moody asked many questions, but Toot was for the most part silent. Among the witnesses were three negroes. Others were police others and citizens.

The taking of the testimony was concluded about midnight, and then Officer Toot was called in to hear the verdict. It required but a few minutes for him, and then Moody was called in. It required a shorter time in which to inform him of the verdict which had been found.

It is, perhaps, significant that every member of the police force seems to be satisfied with the judgment against Moody, for the disgrace incurred by him seemed to reflect on the whole department, and they appeared glad of his dismissal.

Called It Spite Work.

Moody, in referring to the matter afterwards, stated that his dismissal was owing to the personal spite of Officer Toot and said that the department was against him. His statement was not, however, borne out by the testimony.

W. H. Hayes, of Clay Ward, was elected to fill the vacancy. The appointment to the assistant secretaryship in the department was not made on account of the late hour at which the investigation was concluded.

FIRE DESTROYS STORE

FIRE DESTROYS STORE

Loss of Samuel T. Powell & Company Covered by Insurance. Fire early yesterday morning com-pletely destroyed the two-story frame building at 2416 Jefferson Avenue, oc-cupied, by Samuel T. Powell & Com-pany as a furnishing store. The loss will amount to between \$2,500 and \$3,600.

\$3.00.

The flames were discovered by F. A. Bowery, who lives next door, about 3 o'clock, and an alarm was turned in. Chief Raffo, with several engines, responded, but it was useless to attempt to save the building, and the firemen turned their attention toward saving adjoining dwellings. The store and stock were completely destroyed, The stock was covered by insurance, amounting to \$2.000. and the building, which is owned by the estate of James Shields, was also covered by insurance, ance.

VISIT TELLURIUM MINES

people, in two large touring cars, will leave Richmond this morning at 5 o'clock for a visit to the Tellurium mines in Goochiand and Fluvanna counties. The party will attempt to return to Richmond to-night, but this is not regarded as certain, as the trip is about sixty-five miles each way, in addition to the time spent at the mines. In the party will be Moses L. Hotheimer, Edward Krouse and others.

WOULD PRACTICE PHARMACY

record was reported yesterday, when David Turner Green, living twenty miles from Kinston, N. C., on a report received from one of his neighbors, was learned, it is alleged, to have operated a retail liquor store in his barn.

The counter was in the loft, and while his horses and cattle fed below their owner was upstairs dispensing corn whiskey and other fresh beverages at a great profit. If Cameron ages at a great profit.

Large Class of Applicants Reing Examined by State Board.

Seventy-two applicants for license to practice pharmacy in the State are being examined by the State Board of Pharmacy at the University College of Medicine. The examination will be concluded to-day. Following are the members of the board: Joseph L. Annis, Hartisonburg; George T. Mankin, Falls Church; C. P. Kearfott, Martinsville; H. S. Arrington, Norfolk; T. A. Miller, secretary, Richmond.

The board now holds four examinations each year—in January, April, July and October. Considering this, the number of candidates is a large class.

Mary Loving, colored, was locked up on a charge of assaulting Dora Kenney with a bottle, and George Carroll, col-ored, was arrested on a charge of beating his wife. Eddie Woodward, a white boy, was arrested as a fugitive from the Laurel Reformatory.

inything," was one complaint received. anything," was one complaint received, and another citizen said, "We've taken down the stovepipe and don't know what to do. All the cold meat was eaten at dinner." One woman, apparently dismayed, said: "I don't know whether or not we will have any breakfast unless we borrow the neighbor's stove. Our lights won't even burn a little bit. I know the bill will be just as high this month as it always is."

All this disorder was settled after 3 o'clock, when the lights burned brillianty. It was said at the lower gas expected, and that the lack of light was due to the fact that an old yaives was being replaced. It was expected that the work would be finished before the sun went down, but the workmen missed calculations.

The citizens were so much relieved when light and heat came that there is hardly any chance of complaints being made to headquarters. Many of those who went several hours without lights cooked late supper just to assure themselves that the valves will be in order this morning. and another citizen said, "We've taken

Committee Recommends Award to Single Bidder for Municipal Plant Equipment. ,

COMES HERE FOR TREATMENT REJECT RAILWAY'S OFFER

visionally to Supervise Construction.

Without discussion, the Council Committee on Electricity, by a unanimous vote, last night recommended to the Council for adoption an award of conthe municipal plant to Hotchkiss and city yesterday for an operation, re- Gordon, agents for the General Elecbone was set and the patient is said to be doing nicely. Her injury is a broken bone in the forearm.

Despite this trouble, Miss Gisselbrecht, whose father, L. C. Gisselbrecht, nesday of last week were present.

> Consulting Engineer Trafford pre-sented a written report on the General Electric bid, which had been referred

seriousness of her injuries.

Miss Gisselbrecht looked on patiently yesterday while a Richmond doctor set the broken bone, and her only compiaint was: "I'm afraid this will keep me out of the game. I don't mind a liftile thing like a broken arm, because every ball player must endure that. I'm just sorry I can't help Hardware win some more games. They rely on me with the stick, and I'm right there when it comes to fielding. I believe I'm the youngest woman playing semi-professional baseball."

Hurt at Fork Union.

The game in which Miss Gisselbrecht was injured was played on the Fork Union diamond last Saturday. The plucky girl did not complain of her injuries until the next day, and after she had suffered all of Sunday and Monday, she agreed to come here for an examination. It took but a glance to convince the physician that she had suffered a broken arm.

"I wish I was a man, because then I could go to the big leagues," she says. "But a woman has no chance I've got to see the men play ball, and stay in the bleachers, and know that I could do a great deal better. One broken arm will never stop my career in baseball. Papa thinks baseball is everything, and I agree with him." Miss Gisselbrecht secured her injury in a fall while running to catch a foul ball.

May Use Old Lamps.

May Use Old Lamps.

Mr. Trafford explained that the lamps now in use could be altered to meet the city's requirements at a rough calculation of \$2 a lamp. Some of the lamps, he said, were almost new, while others had been in use as much as six years, and it was only by a critical examination of each that he would be able to advise the committee which offer to accept. W. F. Gordon, one of the agents of the General Electric Company, said his company would give offer to accept. W. F. Gordon, one of the agents of the General Electric Company, said his company would give the city an option of ninety days on the use of the old lamps, and the rec-ommendation was made to the Council with that understanding. The independent bid of the General Electric Company on certain individual parts was then rejected, and the cer-tified check ordered returned.

parts was then rejected, and the certified check ordered returned.

Fenrs a Water Famine.

Chairman Richardson informed the committee that plans for the building had been approved by the Buiding Inspector and that the contracts with A. W. McClay & Co., for the foundations, and with E. C. Woodward, for the building, had been signed, and that both contractors had indicated their purpose to begin work at once.

Superintendent Davis, of the Water Department, appeared before the committee, urging the importance of rush-

Mrs. N. L. Tinsley Dica Suddenly From Congestion of the Lungs.

Mrs. N. L. Tinsley, a seamstress employed in the store of Miller & Rhoads, died suddenly in the store of the lungs. She had just registered at the time clock, in the Sixth Street entrance, when she fell to the floor. Drs. Bagby and Mathews were called, but when they arrived Mrs. Tinsley was breathing her last. Coroner Taylor was latericalled, and he decided that death was due to natural causes, and turned the body over to an undertaker.

Mrs. Tinsley, who live at 407 North First Street, had been employed at Miller & Rhoads's for three years. She is survived by her daughter, Miss Virginia Tinsley, who is employed in the same place, and by a brother and sister, who live in New York and Brooklyn, respectively.

Assaulted Her With Ice Pick and Then Escaped Clutch of Law.

Mrs. Jennie Seigel, of 1908 East Main Street, was assaulted by her husband with an ice pick shortly before 8 o'clock yesterday morning, and was hadly injured. In the affray the woman was stabbed in the altomen, in the neck and in the legs, just above the knees. Dr. Collier, of the city ambility of the college of the

Assaulted Her With Ice Pick and Another Section of Settling Basin Flume Stands Required Tests.

Satisfactory tests were made yesterday afternoon of 1,120 feet of the new flume fom the settling basin to the Pump House, the concrete tube show-

street, was assaulted by her husband with an ice pick shortly before a colock yesterday morning, and was badly injured. In the affray the woman was stabbed in the abdomen, in the neck and in the legs, just above the knees. Dr. Collier, of the city ambulance, and Dr. W. H. Parker were called in. Both attended the case, and it was afterwards turned over to Dr. Parker. Though the woman is seriously injured, it was stated last night that the wounds would not prove fatal.

The assault was the result, it is stated, of a long standing quarrel. It seems that the husband and wife had been separated, and that he returned yesterday, either to effect a reconciliation or to get money. His wife protested that she had been supporting herself and six children, and that she would not allow him to live with her. A warrant has been issued for Seigel's arrest, but he has not yet been apprehended. It is thought that he has left the city.

Failed to Meet.

Through the failure of a quorum, the committee on changes in the form of government held no session last night. Only two of the members were present while a third was absent from the city, and the others were not in the fail, and even the more conservation has a root in failure of the mean of the settling basin.
